"We were recommended 1st Choice Stairlifts and were very impressed with their service. When we saw what was available and the fact they were local everything seemed to come together. We felt they were the best people to look after us because they really did care."

"When I came home from the hospital, 1st Choice Stairlifts had delivered exactly what they had promised. Everything was in place so I was able to lead a reasonably normal life, which wouldn't have happened otherwise. They were excellent."

Our easy process

We'll look after everything, from the initial consultation to the installation and aftercare of your stairlift. First we'll assess your requirements with a home-visit by one of our qualified team. Once you've chosen your stairlift, you can take a test ride at our showroom. We'll deliver quickly and arrange for our local, qualified fitters to install your stairlift at a convenient time. Most stairlifts can be fitted in two to six hours.

"1st Choice Stairlifts were so helpful. The service and attention to detail we got from the engineer was really good. Having a stairlift installed has given us our downstairs back and enabled us to stay in our family home."

Roger & Sue Powell, Bristol

"What I liked about Colin and Coral was that they treated me normally. That might sound silly to someone who is able bodied, but it's extremely important to me. They were absolutely marvellous. I'm fully independent in my own home because of 1st Choice Stairlifts."
