

Supra Linea Wheelchair Lift

Brief Summary:

- ✔ A great accessibility solution for straight stairs fitting on outdoor stairs in both private homes and commercial properties.
- ✔ Can also be used indoors on wide stairs in commercial properties.
- ✔ Easy to use roll-on roll-off platform for wheelchair users or optional fold-down seat for ambulant users
- ✔ Custom-made to order in around 4-5 weeks
- ✔ Comprehensive 1-year warranty
- ✔ 24/7, 365 days a year emergency on-call cover included in your warranty
- ✔ Simply fits to load-bearing wall or stanchion support posts and is installed in a day by our manufacturer-trained engineers

Introducing the Access Supra Linea Platform lift, designed to transport a wheelchair user or a person seated on a fold-down seat on the platform, for use on a straight staircase.

The straight stairs have to be one set of steps, so for stairs with an intermediate landing and then another flight, please look at the Supra curved model.

The Access Supra Linea is designed to effortlessly travel on your straight staircase either outdoors with steps leading up to a domestic property or indoors and outdoors for public buildings.

The Access Supra Linea inclined platform lift makes accessing floors easily with a user-friendly design and customised features that make it a comfortable and quality solution.

Supra Linea

Standard Features

- Wall mounted or stanchion mounted where there is no load bearing wall
- Slimline and space saving design takes up little space on the staircase when not in use effortlessly folding up with barrier arms folding into the platform
- Pressure-sensitive safety edges around the platform that will stop the lift should it meet with an obstruction on the stairs
- Automatic access ramp which opens when the lift arrives at the top or bottom of the stairs, allowing the user to mount or dismount with ease. Ramps are folded up when in travel to keep the user safe and their wheelchair secured on the platform.
- Automatic safety bars that surround the user during travel to ensure maximum ride safety and security
- On-board controls provide a simple and user-friendly way to operate the lift
- Ergonomic keys and buttons shaped so that they can be operated with minimal effort along with an aesthetically pleasing design

- Anti-slip platform safety floor covering designed to be hardwearing and durable
- Call stations with joystick or button control placed at either end of the staircase for added safety and ease
- Range of platform sizes to accommodate users' needs and wheelchair/scooter sizes

Supra Linea

Optional Features

- Outdoor model is made from rust-free anodised aluminium and has additional IP55 water protection package to provide a durable, weather resistant lift ideal for any outdoor installations
- Outdoor showerproof protective cover for when the lift is not in use
- 90° Side access ramp that enables mounting/dismounting the platform when there is reduced space at the bottom landing

- Increased speed (0.13m/s) version is available for users' installations with a long travel time
- Manual fold-down seat for ambulant users with automatic seatbelt detection system ensuring the seatbelt is fastened before travel.
- Radio remote control that can be operated by the user during travel or as an attendant control
- Special custom size platforms available
- Battery backup enables the lift to fully function in the event of a power cut
- Emergency call device for two-way voice communication in the event of an emergency.

Is the Supra Linea suitable for me?

As well as the Access Supra Linea, we also offer a comprehensive range of indoor & outdoor wheelchair lifts.

Due to the nature of these products, we only offer these models as new and no reconditioned or rental models are available.
