

Access Supra Wheelchair Lift

Introducing the Access Supra Platform lift, designed for use both indoors and outdoors on curved stairs, or straight stairs with intermediate landings or where a parking bend is needed.

The Access Supra wheelchair incline platform lift is designed to effortlessly travel on your curved, straight, change of gradient, multiple landings, and spiral staircases.

The Supra can be used in public buildings and can be used on outdoor domestic homes provided the staircase is wide enough.

Because of the turning circle that is required for the platform size to negotiate bends, this lift is not suitable for stairs inside domestic homes unless the stairs are over 1 metre wide. In this case wheelchair users would need a homelift or stairlift.

- ✓ A great accessibility solution for curved stairs or intermediate landing stairs both indoors and outdoors
- ✓ Easy to use roll-on roll-off platform for wheelchair users or optional fold-down seat for ambulant users
- ✓ Custom-made to order in around 5-6 weeks
- ✓ Comprehensive 1-year warranty
- ✓ 24/7, 365 days a year emergency on-call cover included in your warranty
- ✓ Simply fits to load-bearing wall or stanchion support posts and is installed in a couple of days by our manufacturer-trained engineers

Access Supra Standard Features

- Wall mounted or stanchion mounted where there is no load bearing wall
- Slimline and space saving design takes up little space on the staircase when not in use
- Pressure-sensitive safety edges around the lift that will stop the lift should it meet with an obstruction
- Automatic access ramp which opens when the lift arrives at the top or bottom of the stairs, allowing the user to mount or dismount the lift with ease
- Automatic safety bars that surround the user during travel to ensure maximum ride safety and security
- On-board controls provide a simple and user-friendly way to operate the lift
- Ergonomic keys and buttons shaped so that they can be operated with minimal effort along with an aesthetically pleasing design
- Easy-to-use joystick control to operate the lift safely with minimal effort
- Anti-slip safety floor covering designed to be hardwearing and durable, providing a flooring that prevents slipping and reduced cosmetic damage

- Call stations with joystick or button control placed at either end of the staircase for added safety and ease
- Range of platform sizes to accommodate users' needs and wheelchair/scooter sizes

Access Supra

Optional Features

- Outdoor model is made from rust-free anodised aluminium and has additional IP55 water protection package to provide a durable, weather resistant lift ideal for any outdoor installations
- Outdoor showerproof protective cover for when the lift is not in use
- 90° Side access ramp that enables mounting/dismounting the platform when there is reduced space at the bottom landing
- Increased speed (0.13m/s) version is available for users installations with a long travel time
- Manual fold-down seat for ambulant users with automatic seatbelt detection system ensuring the seatbelt is fastened before travel.
- Radio remote control that can be operated by the user during travel or as an attendant control
- Special custom size platforms available
- Battery backup enables the lift to fully function in the event of a power cut
- Emergency call device for two-way voice communication in the event of an emergency.

Is the Access Supra suitable for me?

As well as the Access Supra wheelchair lift for curved stairs, we also offer straight outdoor stairlifts. Or if you prefer we have a comprehensive range of indoor & outdoor vertical lifts.

Due to the nature of these products, we only offer these models as new and no reconditioned or rental models are available.

Contact us for a free quote

To see if the Access Supra wheelchair lift is the best solution for your needs call us on 01249 814528 for a friendly chat or to arrange a no-obligation free home survey for a quotation. We'll measure your stairs and advise on which model will suit you best.
