Introducing the Handicare 4000 Outdoor Stairlift, available at 1st Choice Stairlifts for outdoor stairs. Whether you want to access your home, garden, or outbuildings where there is a change in level with a curved staircase the 4000 model is the ideal solution to make your outdoor stairs easier to negotiate.

It can also be used where there are curved staircases to a block of flats.

The lift looks just like the indoor model but has been weatherproofed for safe outdoor use, whilst keeping the style and features of the indoor one.

The 4000 is great at negotiating curved stairs with ease on many configurations of stairs travelling around 90-degree quarter landings and 180-degree half-landings with the added benefit of being able to have a parking bend to park your lift off the stairs if you wish.
